Renewal of the Editorial Board of the Toho Journal of Medicine

Editor in Chief

Hiroyasu Nakano, MD, PhD

It is a great honor to be the Editor-in-Chief of the Toho Journal of Medicine, the official Journal of the Medical Society of Toho University. The Journal is published quarterly and includes review articles, original articles, case reports, data, and short communications on basic and clinical research in all medical disciplines. The aim of the journal is to publish work of originality and high ethical standards. However, our final goal is to further increase the quality of the journal that will be indexed and included in the MEDLINE, the principal online bibliographic citation database of NLM's PubMed system in the near future.

I am proud to work with the distinguished members of the editorial board and sincerely appreciate your interest in the Journal. We look forward to an increase in the number of submissions in the future.
