

Renewal of the Editorial Board of the Toho Journal of Medicine

Editor in Chief
Akira Iyoda, MD, PhD

It is a great honor to be selected as the Editor-in-Chief of the Toho Journal of Medicine, the official Journal of the Medical Society of Toho University. The Journal is published quarterly and includes review articles, original articles, case reports, data, and short communications on basic and clinical research in all medical disciplines. We strive to publish work of originality and high ethical standards. All research animals must be maintained in acceptable living conditions, and studies that require ethical review must be approved by ethics committees or institutional review boards.

I am proud to work with the distinguished members of the editorial board and sincerely appreciate your interest in the Journal. We look forward to an increase in the number of submissions in the future.
